

new MULTI-PURPOSE DUCT TAPE

easily applied to
irregular shapes

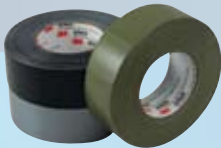

22 lb
tensile strength

7.7mm thickness for
abrasion resistance

NEW 3M™ outdoor masking tape
90 day UV resistant covering

NEW 3M™ extra heavy-duty duct tape
tough 35 lb tensile strength to
handle most any job

available in 7
different colors

new

From space vehicles to furniture. From race cars to bandages. Duct tape applications are only limited by your imagination. Introducing 4 varying types of high quality 3M™ duct tape that will fit almost any application your mind can come up with. The strength of the rubber adhesive is ideal for maintenance, wrapping, protecting, color-coding or any other application that might just need fixing.

3M™ standard duct tape This tape is ideal for light-duty, marking and non-critical applications. The polyethylene backing provides moisture resistance, and the synthetic rubber adhesive allows for adhesion to many different surfaces. The 5.7mm thickness provides a lower profile for tight areas. It has a temperature rating of 93°C (200°F) and tensile strength of 16 lbs. The 1.88-in (48mm) x 150-ft (45.7m) length provides enough tape to finish almost any job.

350	silver, 3M™ standard duct tape, 150-ft

3M™ multi-purpose duct tape This versatile duct tape is ideal for general maintenance, wrapping, sealing, protecting and color-coding. The polyethylene film over the cloth scrim and rubber adhesive provides a moisture resistant seal. The 7.7mm thickness provides abrasion resistance and is ideal for being applied to irregular shapes and sizes. It has a temperature rating of 93°C (200°F) and tensile strength of 22 lbs. This 1.88-in (48mm) x 180-ft (54.8m) duct tape is available in 7 different colors.

360	black, 3M™ multi-purpose duct tape, 180-ft
361	olive, 3M™ multi-purpose duct tape, 180-ft
362	blue, 3M™ multi-purpose duct tape, 180-ft
363	silver, 3M™ multi-purpose duct tape, 180-ft
364	red, 3M™ multi-purpose duct tape, 180-ft
365	white, 3M™ multi-purpose duct tape, 180-ft
366	yellow, 3M™ multi-purpose duct tape, 180-ft

3M™ extra heavy-duty duct tape This rugged duct tape is designed for the most demanding applications in the automotive, trucking, construction, industrial and HVAC markets. The polyethylene film covering the dense cloth scrim provides abrasion resistance and water proof backing. The rubber adhesive securely attaches to most material and irregular shapes and sizes. This 10.7mm thick duct tape provides ample protection for almost any job. Meets UL 723, HUD and BOCA codes. It has a temperature rating of 93°C (200°F) and tensile strength of 35 lbs. This 1.88-in (48mm) x 180-ft (54.8m) duct tape is available in 3 different colors.

370	black, 3M™ extra heavy-duty duct tape, 180-ft
371	olive, 3M™ extra heavy-duty duct tape, 180-ft
372	silver, 3M™ extra heavy-duty duct tape, 180-ft

3M™ red outdoor masking & stucco tape This robust tape is ideal for construction, marine, abatement, and maintenance applications. The unique adhesive also can be easily applied to most surfaces, including irregular shapes and cleanly removed up to 90-days after being applied. The polyethylene film covers the dense cloth scrim to provide a 90-day UV resistant cover. The waterproof backing also covers the shear resistant synthetic and natural rubber adhesive. This 12mm, red tape is highly visible to ensure removal after project is completed. Meets UL 723, HUD and BOCA codes. It has a temperature rating of 93°C (200°F) and tensile strength of 35 lbs. This 1.88-in (48mm) x 135-ft (41.1m) duct tape is available in red only.
